Erasmus+ Mobility with Riga Technical University

RIGA TECHNICAL UNIVERSITY

Riga Technical University (RTU)

RTU is the largest engineering university in Latvia with a broad education and research profile, as well as a thriving community of foreign students from all across the world. By 2020 RTU strives to become the leading University of science and innovation in the Baltic States by ensuring a high quality study process, excellence in research and sustainable innovation and commercialization activities. RTU puts great emphasis on providing suitable learning, living and integration conditions for foreign students as well as studies in English in all study programs, which are:

- Architecture and Urban Planning
- Civil Engineering
- Computer Science and IT
- Electronics and Telecommunications
- Power and Electrical Engineering
- Engineering Economics and Management
- Materials Science and Applied Chemistry
- Transport and Mechanical Engineering
- E-Learning Technologies and Humanities
