

The subject of the journal "Information and Technology Bulletin"

The subject of the journal "Information Technology Bulletin" - Technical Sciences.

The headings of the Journal correspond to the Nomenclature of specialties for which academic degrees are awarded:

05.07.00 Aviation, rocket and space technology [05.07.02 Engineering design and production aircraft 05.07.03 Durability and thermal modes of flying machines, 05.07.10 Innovative technologies in aerokosmich e Economic Activity]

05.13.00 Informatics, computer technology and management [05.13.01 System analysis, management and information processing (by industry), 05.13.18 Mathematical modeling, numerical methods and program complexes]

05.16.00 Metallurgy and Materials [05.16.06 Powder metallurgy and composite materials, 05.16.08 nanotechnology and nano-materials (by industry), 05.16.09 Materials (by industry)]
